

Syrma achieves enterprise-wide visibility with Dynamics AX

Syrma is a leader in high-tech electronics manufacturing domain. Syrma specializes in collaboration to deliver top-notch electronics manufacturing services (EMS), co-developing optimal electronics design, engineering, and production solutions.

Industry: Electronics Manufacturing
Size: 501-1000 Employees

Location: Chennai

The existing SAP-B1 didn't match the rapid growth of Syrma and the lack of features including alternate items, integration between its manufacturing and supply chain, and no scalability contributed to numerous inefficiencies. Syrma needed a global ERP solution specific to high-tech Industry.

- Implemented Dynamics AX
- Automated Production Planning and Supply Chain

The visibility into Supply chain, Sourcing, Order Planning and Manufacturing Process with comprehensive view of BoM/Alternative Items and traceability has helped Syrma to shorten their cycle times significantly. Syrma achieved efficiency in managing the shop floor, timeliness in handling shipment on demand, and accuracy in managing returns.
